E.E. Muir & Sons

POST HARVEST PRODUCT GUIDE

www.eemuir.com.au

WITH A PRESTIGIOUS HISTORY THAT EXTENDS MORE THAN 90 YEARS AND 4 GENERATIONS.

When Edward Eric Muir established his business in 1927 at the Victoria Market in Melbourne, he began a family enterprise that has now grown to cover all of Australia through its many retail outlets.

After Eric Muir's retirement, his son Max continued to develop and expand the business and was joined by his two sons, Ric and Ian, in 1969 and 1975 respectively.

Under their combined direction and leadership, this family owned company has grown to be a major supplier of farm services and inputs.

E.E. Muir's great grandsons, Andrew, Stuart, James and Cameron now take active roles in the company, having completed their tertiary qualifications.

The Muir family are committed to continue the excellent tradition established in the past, and are proud to offer the services of a 4th generation Australian company to its expanding customer base.

The services we offer are:

- an unparalleled product range in the horticultural industry;
- commercial agronomists that give accurate on farm advice;
- trained agricultural graduates in all fields;
- full testing and analysis service for dip concentration;
- residue and MRL testing and analysis for fruit;
- accurate advice on pesticide registrations, withholding periods etc;
- sanitation and food safety advice and testing;
- development of IPM resistance strategies;
- information to enhance produce storage and shipping;
- identification of pest disease problems;
- packing solutions;
- post harvest technology advice

SANITISERS AND CLEANERS

DECCO AEROSOL PLUS

One shot sanitation by cold fumigation for fruit and vegetable storage rooms, transport vehicles & shipping containers.

Pack 750ml

CHILLSAFE SACHETS

For safe, continuous sanitation of fruit & vegetable cold storage rooms and transportation vehicles. Easy to install and use sachets that actively work 24/7 for 30 days

Pack Single Sachets (treats 25m³)
Bulk Pack C50 x 10 (treats 500m³)

DECCOSAN 315

Dual active QAC (Quaternary Ammonium Compound)
A combination of 2 sanitising and deodourising actives. Non rinse for use on packline and other hard surface sanitising.

Pack 19L

FRUIT AND VEGETABLE KLEEN 451

Food grade Sodium Hydroxide Solution.
A low-medium foam formulation used to remove residual dirt, wax and grease from fruit and vegetables prior to waxing.

Pack 19L

EQUIPMENT CLEANER 510

Contains Sodium Metasilicate wetting agents & Isopropanol
Used on all parts of washers waxers and equipment that have deposits of residual waxes and pesticide layers.

Pack 19L

ANTI FOAM C AND SILICONE 081

30% Silicone Emulsion Food Grade
For the reduction of foaming in water and the enhancement of performance of fruit waxes.

ANTI FOAM C Packs 5L, 20L, 208L
DECCO SILICONE 081 Packs 19L

ANCILLARY PRODUCTS

AQUA - FOGGER

Models: ATC-32 Aquafor CRSM & Hurricane Ultra
Designed for application of hard surface sanitisers such as Vibrex. Efficient application for use in facilities such as packhouses, glasshouses and cool rooms.

MANGO CLEAN & PERFECT MANGO LIQUID

Mild Alkali Blend
Easy to use liquid De-sapping wash that has been specially formulated for use in mango hand-wash systems. Neutralizes sap burn on fruit & skin. Lower foaming.

Pack 20L

SULPHUR PADS (GRAPES)

SO2 Pads. Cell and Laminated Styles
Dual release sulphur dioxide pads for the control of Botrytis in packaged table grapes. Two styles, with a range of sizes: 260x460mm and 260x350mm are the most popular

WAX AND FUNGICIDE APPLICATOR

IP65 Lenze 240V Speed Controller Spinner Head & Motor
Spinning disc style applicator for application of waxes & fungicide. Controller, pumps & drum stirrers also available.

REFRACTROMETER

Models: ATC-32 Aquafor CRSM & Hurricane Ultra
Designed for application of hard surface sanitisers such as Vibrex. Efficient application for use in facilities such as packhouses & glasshouses.

Peristaltic Roller Pump, Norprene Chemical Tubing.

Spinning disc applicator for application of waxes & fungicide. Controller, pumps & drum stirrers also available.

SANITISERS & WATER TREATMENT

FREXUS DRY CHLORINE RANGE (*APVMA APPR'D)

Chlorine 680g/Kg

Dry formulations of calcium hypochlorite. Can be used for manual dosing or controlled auto dosing using patented IF3 feeder. APVMA approved 120g Frexus (Approx 22 briquettes in 1000L of water produces a 100ppm solution. Also available in granules, briquettes & larger forms.

Packs 10kg and Various

CITRAN 1 (ORGANIC)

Citran Fruit & Vegetable Santiser is a powerful environmentally friendly sanitiser that is safe for food contact situations. 100% natural product that is non-toxic, non-hazardous and non-corrosive.

Packs 5L, 20L

TIDAL SURGE (*APVMA APPROVED)

160g/L Peroxyacetic acid + 110g/L Hydrogen Peroxide.

An APVMA registered water sanitiser. Versatile, easy to use non-rinse antimicrobial, used at one rate of 48ml/100Lts water. (80ppm) Test strips available.

Packs 20L, 200L

NYLATE & CLOBR (*APVMA APPROVED)

Bromo Chloro Dimethyl Hydantoin 920g/kg (580gm/kg chlorine equivalent)

A cost effective low rate twin biocide product which is administered through an automated filtered system; less corrosion and lower odour. APVMA registered; widely used for treating fruit and vegetable wash water.

Packs 10Kg, 20Kg

NYLATE POWDER

Bromo Chloro Dimethyl Hydantoin 350g/L (200g/L Chlorine equivalent)

Ready to use, Nylate Powder is designed for batch treatment of wash water for control of human pathogens on a wide range of fruit and vegetables. Rate of 50gm per 1000L water produces a 10ppm solution.

Packs 1.5kg, 10kg

TSUNAMI ON FARM (*APVMA APPROVED)

Peroxyacetic Acid 160 g/L plus Hydrogen Peroxide 110 g/L

Controls bacteria in "process and wash" water of fruit and vegetables. One rate:- 480 ml per 1000L and suggested 45 second contact time. Registered by APVMA

Pack 18L

TURCOSAN

200 g/Kg available chlorine as Dichloroisocyanurate.

High strength granular chlorine. Buffered form of chlorine which maintains strength over greater PH range and higher organic matter contamination than other chlorines. Rate of 500g in 1000l of water produces 100ppm solution.

Pack 20kg

VIBREX HORTIPLUS (*APVMA APPROVED)

30,000 ppm available Chlorine Dioxide

Stabilised chlorine dioxide activated by one of 3 acids (see below). Used in wash water treatment, bio- film control, media sanitation and mushroom treatment. Broad spectrum, over wide PH range. APVMA approved.

Packs 20L, 200L, 1000L

VIBREX ACTIVATION ACIDS (H3, P6 & M12)

Hydrochloric, Phosphoric or Malic Acid

Especially formulated for mixing 1;1 with Vibrex for activation before introduction to water. Choice of acid depends on intended use.

Packs 20L, 200L, 1000L

TEST STRIPS AND TEST KITS

Nylate (3 way), Chlorine, Peracetic Acid, pH

Used to monitor sanitiser strength in water. Dip and read. Available for most sanitisers listed under water treatment. TEST KITS ALSO AVAILABLE

Packs Various

DECCO FRUIT COATINGS

DECCO'S MARKET LEADING FRUIT COATINGS HELP PRESERVE PRODUCE FROM AROUND THE WORLD. CUSTOMISED COATINGS ARE MANUFACTURED TO MEET THE MOST STRINGENT MARKET REQUIREMENTS. DECCO PRODUCE COATINGS WITH SHELLAC, CARNAUBA AND ALSO WITHOUT MORPHOLINE AND SHELLAC TO MEET DIFFERENT MARKET REQUIREMENTS.

CARNAUBA WAXES

CARNAUBA PREMIUM (CITRUS AND APPLES)

A Carnauba based wax with a higher shine and longer life than standard Carnauba, whilst maintaining Carnauba's safety from chalking and white spotting. Decco's premium Carnauba Wax can be used on citrus and apples. **Packs 19L, 208L**

CITRUS LUSTR 436 (CITRUS)

NEW economical carnauba based waxes for citrus.

Packs 208L

DECCO LUSTR 630 EXPORT COMPLIANT CARNAUBA

Carnauba wax specifically designed to meet the specifications of the EU market. Based on Carnauba these coatings can be applied through standard equipment. Maintain the features of premium Carnauba waxes.

Packs 19L, 208L

DECCO LUSTR 634 (Apples) CARNAUBA

A Shellac & morpholine free carnauba apple waxes designed to meet new market specifications. Designed by Decco for use through standard packhouse equipment.

Packs 19L, 209L

DECCO WAXES - AVOCADO AND STONEFRUIT

AVOCADO LUSTR 202

A dilutable emulsion designed to extend quality & marketability of avocados. Reduces moisture loss, shrinkage and a storage wax. Also suitable for use on mango's

Pack 19L

SHELLAC WAXES

CITRUS LUSTR 402 AND 402A SHELLAC (CITRUS)

Decco's flag ship citrus wax shellac based. The first choice for export as well as local market. A long life with a deep rich shine. A high build wax with an established reputation in 35 countries. **Packs 20L**

CITRUS LUSTR 266 SHELLAC (CITRUS)

A newer alternative for citrus packers looking for a more economical shellac wax and high shine. Shellac based.

Packs 208L

DECCO LUSTR 602 - EXPORT COMPLIANT SHELLAC

A Shellac based wax manufactured by Decco to meet the specifications of the EU market. Continuing the tradition of the 402 series of products, this wax will deliver a resilient shine & premium protection for citrus and apples.

Packs 19L, 208L

PREMIUM APPLE LUSTR (SHELLAC)

Decco's premium shellac wax for apples. Produces top shine to maximise consumer appeal.

Packs 208L

PEACH, NECTARINE & PLUM LUSTR 251 (Stonefruit)

A water miscible wax which imparts a rich gloss to stonefruit & enhances the natural colour of the fruit. Easy to use requires no drying tunnel; very economical. Gives fruit a stand out appearance and reduces moisture loss & shrinkage.

Pack 19L

POST HARVEST FUNGICIDES / INSECTICIDES

GRADUATE A+

Azoxystrobin 239g/L & Fludioxonil 239g/L (Group 11&12)

Combines the benefit of 2 fungicides with different modes of action for a high level of control of stem end rot and side rot of Avocados.

Pack 1L

PHILABUSTER 400 SC

Pyrimethanil 200g/L + Imazalil 200g/L (Group 3 & 9)

Philabuster combines the benefit of 2 fungicides with different modes or action for a high level of control of blue mould, green mould and stem-end-rot of citrus. It provides preventative, curative and anti sporulation control.

Pack 1L

FUNGAFLOR 750 SG

Imazalil 750g/Kg (Group 3)

A granular formulation of the original Imazalil from Janssen. Avoids powder drift and minimises odours. Registered for use on Citrus and Potato tubers.

Pack 1kg

PANOCTINE

Guazatine 400g/L (Group M7)

Liquid fungicide for the control of sour rot and penicillium on citrus; the industry standard for the control of sour rot. Also registered for the control of rots on rockmelons and tomatoes. Apply as a drench or in-line treatment.

Pack 5L

PROSPECT

717 g/L active hydrocarbon

Specially formulated for post harvest control of light brown apple moth other fruits as per current permits. Apply as a drench or in line.

Pack 205L

CHAIRMAN SE FUNGICIDE

Propiconazole 102.5g/L & Fludioxonil 240g/L (Group 11&12).

Combines the benefit of 2 fungicides with different modes of action for a high control of blue & green mould and sour rot of citrus.

Pack 1L

SCHOLAR 230SC

Fludioxonil 230 g/L (Group 12)

Newly developed liquid fungicide for the control of Penicillium and Diplodia on citrus (both high and low volume); brown rot and Rhizopus on stone fruit (including cherries); blue and grey mould on pome fruit and grey mould on kiwi fruit. Also registered for use on Mangoes.

Pack 1L

FUNGAFLOR 500EC

Imazalil 500g/L (Group 3)

The original Imazalil. Easy to use liquid formulation for the control of moulds on citrus and various fungi on rockmelons and potato tubers.

Pack 1L

TECTO 500SC

Thiabendazole 500g/L (Group 1)

Flowable fungicide for the control of blue mould, green mould and stem-end-rot on citrus, as well as various post harvest rots on bananas and potatoes.

Pack 5L

CHEMLEY NO-SCALD DPA.

310 g/L Diphenylamine

Fruit dip liquid concentrate for the reduction of superficial scald on apples and pears.

Pack 19L
